LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your feet dry and you will seldom need a Physician!

IT is a fact worth thinking of, that when the feet are cold or wet, it is one of the greatest causes of colds and consumption! It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when its water-proof, this is remedied, by the application of this preservative, it remains soft and entirely impervious to water.

After being engaged for 20 years in the manufacture of Leather for all the Southern States, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the essential properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

☞ Positively wear twice as long. ☜

I have now used it for three years, and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence recommend it to the public as the best article in the market.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photography and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture, and sell the Chemical Paper in America, invented and patented in England by Henry Green, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade, Brothers, extensive and skillful photographists, 293 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$27 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.
For Wrapping silks and other fine articles it is invaluable, especially in summer.—40 cts. a lb.
For Indentures and Agreements, 40 cts. a lb.
All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Solicitors it is invaluable, as it is more superior to any other paper in the matter of climate does not destroy it;—the "properties" insured in the pulp being preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records are kept except on this paper, which the natives call "the ordinary paper," which they use, and, being chemically inserted in the paper makes it indestructible by the ravages of time. It is also proof against moth, rust and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris, Otsego Co., N. Y., of about 300 horse power, and are able to fill all orders for Paper, at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

THE NEW SPEAKER'S POSITION—THEN AND NOW—Co Orr, the Speaker of the House of Representatives, was the administration candidate for that important position He now sustains the administration and the Lecompton Convention in denying to the people of Kansas the privilege of rejecting the Constitution framed by delegates from less than one tenth of the voters In so doing Col Orr follows closely the example of the President and his Secretary of State—by completely falsifying his own previous pledges He has heretofore expressed himself quite as strongly as the President, in favor of submitting the constitution to the people without reservation of any part of it—and his former declarations on this subject may now be justly brought forward as cumulative evidence of the perfidy of the administration and its supporters

It will be recollected that Col Orr, went out to Kansas at the time Gov. Walker was appointed and it was given out that in conjunction with Mr Buchanan s new Governor, he was to arrange matters so as to quiet the Kansas question and disembarrass the administration To do this it was necessary to make fair promises to the people Walker did so publicly, in entire accordance with the President s instructions as he has shown in his recent letter of resignation Col Orr did the same thing in his conversations in the Territory—This is shown by the following extract of a letter written at the time by a South Carolinian and a member of the Kansas Legislature. In that letter he said

"I saw Col Orr at Leavenworth, and he stated in a conversation which I did not understand to be at all confidential, that, in his opinion Kansas would not be admitted into the Union unless the Constitution was submitted to the people He thought that the qualification of voters upon it should be so defined as to admit the vote to the *bon fide inhabitants* He did not think that a submission to the registered voters under the Convention act would suffice—but thought there ought to be proviso made to exclude from the polls Gov Walker, for maintaining his position were transient persons [Missourians who had been only one day in Kansas were actually allowed to vote on the 21st December] that the Constitution should be submitted to the people, has been disgraced by the administration and forced to resign—thus becoming the fourth gubernatorial victim to the perfidious policy of pro slaveryism—while Col Orr, who disregards the pledges then made, is rewarded with the Speakership

Very Suspicious Testimony.

The hunker papers are publishing a letter of Judge Williams of Kansas to the administration at Washington as an "authentic account of the origin of the Port Scott troubles They might as well offer Lecompte or Cato for witnesses Williams makes up the trio of notorious pro slavery Judges who have been the instruments in enforcing the border ruffian laws He of course declares that the Free State men were the aggressors! The ruffian invaders declared the same thing when they were seizing upon the ballot boxes, robbing and murdering the people, and sacking and burning their towns Then, as now, the outrages were committed in the name of law—border ruffian law—and the people Kansas denounced as criminals and outlaws, for resenting the outrages This Williams dispatches are very similar to the early dispatches of Shannon and the statements of Stringfellow, Lecompte and Sheriff Jones—They are moreover flatly contradicted by letters from the Territory

The Missourians had a very peaceable time voting at the Kansas election of the 21st Double files of United States troops guarded their approach to the polls—and no questions were asked, except—"Are you at this instant an inhabitant of the Territory" How great is Popular Sovereignty!

The Matrimonial Question.

We notice that a number of the State papers at Hallowell that the 9th section of Chap 59 of the Revised Statutes renders void all marriages where the parties go out of the State to avoid the publishment of law, and return to reside in the State

In connection with this matter we ask them to examine the *seventh* section of the same chapter, which reads as follows

Sec 7 When residents of this State go into another State for the purpose of marriage, and it is there solemnized, and they return to dwell here, they shall file a certificate or declaration of their marriage with the clerk of the town in which each of them then lived, within seven days after their return, under a penalty of ten dollars, to be recovered by any person suing therefore one half to his own use and the other half, to the use of the town where the forfeiture is incurred

Suppose that parties married out of the State record their marriages as above, or pay the penalty required for neglecting to do so—will any court in the State decide that a subsequent section makes the marriage void? We ask for information We should like to have this question settled either for or against the universal application of the 9th section—for it is rather an important matter If it does apply, as alleged, the Legislature should promptly, if it approves, change the obnoxious section.

The Inaugural Ball,

To be given at North s Hall, Augusta, on Friday evening, the 8th instant, promises to be a decidedly brilliant and interesting affair The list of managers, embracing as it does eminent gentlemen of all political parties, is a sufficient guarantee that it is not intended for political effect Chandler's Brass Band, of Portland, will furnish the music, which will be quite an attractive feature of the occasion Supper will be served at the Stanley House (directly opposite the Hall,) by the landlord, Mr George W Ricker, and the patrons of that admirably kept hotel, or those persons who attended the military ball at the State House, a few years since, upon which occasion Mr Ricker furnished the refreshments, will need no assurance that this part of the entertainment will be attended to in the most skilful and liberal manner

An extra train is to be run upon the S & K R R, to connect with the freight train from Bangor Friday afternoon, and the train to Bangor Saturday morning thus enabling persons to leave here Friday afternoon, attend the ball in the evening, and return Saturday morning

There will undoubtedly be delegations present from all parts of the State

PERSONAL. Some of our friends from Aroostook County, on their way to Augusta, to attend the session of the Legislature, have been in the city for a day or two Mr McClusky, the new Senator from that County, arrived here on Friday, and leaves to day, for Augusta.

Messrs Woodbury from Houlton, and Patten from Fort Fairfield, Representatives elect, have been in the city a day or two

The Hancock and Washington delegations are also moving in good season several of the members being in the city, and bound for Augusta to day The eastern part of the State although distant from the capital, will be represented quite as promptly and ably as any other section

BAD NEWS FROM THE LEVIATHAN Intelligence by the Niagara, this morning announces that another attempt to complete the launching of the Leviathan has proved abortive—only three feet additional having been gained The most tremendous pressure that could be obtained was insufficient to move her farther—hydraulic presses and other machinery having broken under the strain No day has been fixed or another trial and the Times speaks discouragingly of the prospects A failure of this great experiment in ocean navigation would create the deepest regret both in England and America Much dissatisfaction is now felt, because the Leviathan was not built in a dock, where she could have been floated without difficulty. The expenses of the attempts to launch her have been enormous—but, the cost of a dry dock of sufficient capacity would have exceeded the cost of the ship

Gov Hiram Paulding comes honestly by his skill in arresting unlawful expeditions—His father was hatchet brained John Paulding who was one of the three captors of Major Andre —*Albany Journal*

The Commodore is said to have "exceeded his instructions in arresting Walker" A correspondent suggests that this is only character istic of the family—his father having exceeded the instructions of Benedict Arnold when he arrested Andre

Judge Gates of the Federal Court, has decided that the detention of the schooner Susan at Mobile is illegal The Susan was bound to Greytown for the Filibusters, but the Collector refused her a clearance

Humphrey Marshall says he will introduce resolutions in Congress directing the President to send Walker back in a national vessel

Gen Quitman recently gave notice of a bill in Congress, to repeal the neutrality laws, and it is said the fire eaters will demand its passage as a new test of democracy

So we go

Some additional returns of the bogus vote on the bogus Kansas Constitution have been received These votes would appear to have been cast principally by intrusive voters from Missouri, who at Leavenworth and probably elsewhere were allowed to vote on swearing that they were there, *at the time of voting*, inhabitants of Kansas The bogus schedule under which this election was held was so cleverly worded, with a view to this very fraud John Calhoun county is stated to have returned a Pro Slavery majority of two thousand, of which thirteen hundred were returned from the famous Oxford Precinct.

Gen Pillow for "exceeding his instructions" is threatened with a court-martial while Walker, a captured fugitive from justice is set at liberty, by the executive department. If he *deserves* it he may be tried at New Orleans among the filibusters provided any body thinks it worth while to go through with so farcical an operation

PLEASING DISTINCTIONS.—Gen Havelock is a wit as well as a warrior The following is the despatch by which he conveyed the intelligence of his last success in India to the Governor General

Dear General—Let all our past misfortunes be forgotten, for we are in Lucknow.

Yours Havelock.

This is really as good as Sir Sidney Smith's famous dispatch announcing the capture of Scinde—"Peccavi" — I have sinned They both, doubtless, at some time served in the Punch.

NOT BAD A jolly lawyer had an office next to a doctor s One day an elderly gent emerged from the old school blundered into the wrong shop

"Dr K——, in?"

"Don't live here," says P—— who was in full scratch over some important papers, without looking up

"Oh I thought this was his office"

"Next door"

"Prap, sir, can you tell me if the doctor has many patients?"

THE CLIMATE OF EASTERN MAINE.—Col Joshua Lane, who has resided in Hampden over forty years, and has long kept a daily record of the weather, informs us that the seasons have been constantly growing milder for nearly twenty years, especially in the autumn and that the fall weather in this section is now more moderate and favorable for agriculture than in many of the western States The frosts now hold off much later than formerly—the first frost this year, severe enough to kill vegetation being as late as the 30th of September The two past months have been more moderate than he has ever known the same months in former years The average temperature of November at sunrise, was 30 degrees above zero, and that of December 29 degrees above The mercury has been below zero but twice in December and then only 4 degrees All the snow which fell at Hampden up to the 31st ult. amounted to only four inches on a level, on the 31st six inches fell, which makes prime sleighing

RAILROAD TO AROOSTOOK.—From an article in the last week's Pioneer, we extract the following appeal in favor of a railroad to the Aroostook—which, as the editor well says, will be the most efficient method that can be devised for developing the resources of the State and keeping our people at home

But the people of our State if they wish to retain their sons and daughters, must do something to develope our resources and to encourage the settlement of their public lands Do this and Maine would prosper and increase in wealth and population as rapidly as the Western States If the people of Maine would have their public lands occupied by enterprising settlers they must open a great thoroughfare to and through them, by which our immense products can be easily transported to market, and by which the emigrant may easily reach his new home Let the influential men, the men of means, the lovers of New England homes, in devising some way to open new sources of industry and business for our people, but build a railroad from Bangor to Aroostook, and they have devised a way better by far, than any other of which we are aware, to open the resources of the State and to encourage the sons and daughters of Maine, to remain on their own native soil But of this we shall have more to say hereafter

The inhabitants of Letter G plantation in Aroostook County, at a meeting on the 26th ult. voted against making application for incorporation as a town So says the *Pioneer*.

We received samples from a large lot of beautiful trout at the market of Wm Low, on Kenduskeag Bridge—which should have been acknowledged in our last They are from Moosehead Lake and tributary streams in its vicinity.

THE FLOUR BUSINESS OVER THE GRAND TRUNK —It is stated that the Portland and Boston Steam Company have contracted to deliver in Boston 200 000 barrels of flour from the West, to be received over the Grand Trunk Railway.

Rev. L S Kalloch is to deliver a lecture before the Young Men's Forensic Union at Rockland on Wednesday evening of this week

At the recent term of the Supreme Judicial Court in Oxford County, Alfred W Stearns recovered $4723 97 damages against the Androscoggin & St. Lawrence Railroad Company, for burning their chair factory at Brown s Falls, two years ago.

James Littlefield, from Portland, Me, was recently killed at Two Mile Bar on the Stanislaus river, California, by the caving of a drift.

HANDBOOK OF RAILROAD CONSTRUCTION.—Among the literary notices in the January number of the Atlantic Monthly, is a highly commendatory notice of the above named work by Geo L Vose, Esq The author is a son of Rev Richard H. Vose of Augusta, and although quite a young man, has already achieved a reputation as a skillful and efficient engineer

A young man named Carter was drowned at South Hope on Monday evening of last week, by breaking through the ice while skating on Grassy Pond His age was 18 years *Belfast Age*

ARRIVAL OF THE

NIAGARA,

AT HALIFAX.

FAVORABLE FINANCIAL NEWS.

ANOTHER FAILURE TO LAUNCH THE LEVIATHAN.

HALIFAX, Jan. 2, 1858.

Niagara from Liverpool about 10.30 A. M. of the 18th, arrived at Halifax 12.30, A. M., January 2d.

Atlantic arrived out on the 16th.

The Niagara reports Dec. 30th, 5.45 P. M., off Cape Race, bearing north, distance two miles, fired two rockets and one blue light, and threw prees despatches overboard.

On 1st inst., passed the Canada.

In the financial affairs of the London money market on the 16th there was a further tendency to relaxation. [See latest news.]

The failure was announced of Edward Smith, wool-stapler, large liabilities; and Saalfeld Bros., woolen manufacturers, Leeds; liabilities £200,000.

Mr. Yowdall of Leeds, a very extensive operator in wools, was reported in temporary difficulties, but not actually suspended.

At Hamburg the rate of discount receded to nine per cent. On the 17th there was increased confidence and a rise in the funds under the influence of the Atlantic's news, and specie money was in good supply, and applications at the Bank light.

The suspension was announced of William Cheesborough & Son of Bradford, one of the largest woolen firms in Yorkshire; liabilities not stated. The Bartford & Gravesend Bank also stopped; liabilities not more than £20,000.

The Burgesses of Hamburg have authorised a new loan, thereby making the amount of loans contracted about forty millions of francs.

The rate of discount there further receded to 7 and 9 per cent.

An important firm, Schultz & Schewman, largely engaged in the metal trade, Hamburg, suspended.

James Holmes, carpet manufacturer, Kidderminster, suspended for £35,000.

An official statement of the affairs of the Western Bank, Scotland, shows liabilities of over £8,900,000 sterling, and a deficiency in the assets of over £300,000.

On Friday the 18th the stock market further advanced, and closed buoyantly.

Telegraphic advices from Hamburg reported further considerable improvement.

Wogg Powell & Son of London, in the Manchester trade, suspended; heavy liabilities.

Operations were resumed upon the Leviathan on the 16th, but with most tremendous pressure the vessel was only moved about three feet, when work was suspended sine die; no less than three hydraulic rams, one powerful crane or windlass and the double chains which drag the vessel towards the river having been all burst and broken. The Times thinks half the hydraulic presses in the Kingdom will be required to overcome the difficulties.

Admiral Sir P. Beaufort is dead.

A pension of a thousand a year is confirmed to Gen Wilson, and £500 each to Lady Neill and Mrs Nicholson.

Another India Reform Meeting has been held in London.

The latest step in reform agitation is a memorial presented to Lord Palmerston, influentially signed, for special representation in Parliament of the educated classes.

France.

Foreign bankers are to be subjected to an import duty of 25f per hectolitre of pure alcohol.

It is rumored that the Emperor intends to remit a portion of the punishment incurred by the "Presse," and that a general amnesty for press offences will appear on New Years day. It is also said that the decree of exile against Gen. Bedeau and Changarnier will be repealed.

Bank of France rate reduced to 6 per cent for all descriptions of bills. This inspired additional confidence.

Instructions said to have been sent to the French Minister at China, to co-operate cordially with Lord Elgin, and the English commanders.

Spain.

An amnesty for political offences in the transatlantic possessions of Spain has been granted.

Sardinia.

The King, in opening the Legislative session, hoped for cordial co-operation in the development of liberal principles, which he said are the immovable basis of the national policy. The interruption of diplomatic relations with Austria had not affected civil and commercial intercourse.

Prussia.

A Berlin despatch says that diplomatic relations will probably be soon resumed between Prussia and Switzerland.

Russia.

The Berlin correspondent of the London Times says the American brig Silver Keys, having on board the engineers and machinery that were to have been employed in the raising of vessels sunk at Sebastopol, has returned to Constantinople. Said vessels are reported by the divers to be so thoroughly buried in mud and earth that raising them is out of the question—the difficulties and expense of doing so being estimated to exceed the probable proceeds of salvage.

A dispatch from St Petersburg announces an important victory over the Tcherkesses. A number were killed, and many villages were burned.

Norway.

The commercial crisis in Norway continued very severe. Two delegates from government had gone to Hamburg with money to support firms there whose failure would be prejudicial to Norwegian commerce.

Sweden.

A number of new and important failures are reported in Sweden. Government proposed to borrow 12,000,000 thalers to assist merchants.

Denmark.

The Bank of Denmark advanced nearly a million francs to a house charged to maintain relations between banks in Denmark and Germany.

Turkey.

The Paris Patrie says the Ottoman ministry is about to bring the question of occupation of Perim by England before the representatives of the great powers at Constantinople.

Lord Stratford De Redcliffe had at last certainly quitted Constantinople, and was at Vienna.

Very Latest by Telegraph to Liverpool.

London, Saturday morning. [Times city article.] Funds opened with great steadiness this morning, and experienced before the close of business a further advance of quarter per cent. The bank return was expected to be very favorable, and it shows a further increase of £1,381 566 in stock of bullion. Both bullion and reserve, even supposing £2,000,000 of over issues to be deducted from the latter, are now higher than in April last, when the rate of discount was only 6 per cent. In the stock exchange the supply of money is abundant, and in the discount market the best paper can be readily negotiated at from 8½ to 9 per cent. At the bank the demand continues limited, and the resources of the establishment are augmenting with such rapidity, that a reduction from the minimum rate of 10 per cent seems hardly likely to be delayed beyond next Thursday.

At Hamburg the crisis appears likely to be partially subsiding, the rate of discount for short paper having fallen to 8 per cent. About £132,000 of gold of various sorts was taken to the bank to day, besides about £40,000 in sovereigns from America and 100,000 sovereigns from Ireland. A very large amount was also expected to be delivered there to-morrow. The amount of specie to be shipped for the East is £357,677.

Commercial Failures.

The Times gives a list of the principal suspensions announced in London since beginning of October. The number is 55 and liabilities are estimated at about £16,000 000. The liabilities of houses suspended in the Provinces is computed at £35,000,000 at a very moderate calculation, but this included the debts of five banks, amounting to £23 000,000. The total is £50,000,000.

[Daily News city article.] A considerable fall in value of money is evidently impending, speculation is increasing in the stock markets. The funds to-day were very buoyant. English, Canadian, Indian, Belgian, and other foreign railway shares were in active speculative demand, in many cases at considerably advanced rates. Now that more prominent stocks have experienced so important a rise, the speculators are eagerly turning their attention to a variety of securities which have hitherto been neglected. All the markets closed with a favorable appearance, in anticipation of favorable bank returns. At Bank of England, to-day, the demand was again only moderate, whilst large sums fell due from day to day. In open market the signs of returning ease are unmistakable. Good bills are currently discounted at 9¼ per cent; choice paper is done at 9¼ and 9 per cent, and in exceptional cases transactions took place as low as 8¾ per cent. A reduction in bank rates is evidently at hand. A very large amount of money is seeking employment in stock exchange loans, on government securities, but the highest rates obtainable are 5 to 6 per cent for short periods.

Liverpool Breadstuff Market.—The market is generally quiet; Messrs. Richardson, Spence & Co. report flour quiet and steady—Western Canal 23s a 26s; Philadelphia and Baltimore 25s a 26s; Ohio 27s a 28s. Wheat firm, with a slight advance on all qualities, the improvement being mostly in fair grades—red quoted 6s 2d a 7s 1d; white 7s 10d a 8s. Corn firmer—mixed 32s a 33s 6d; yellow 34s 3d a 34s; white 37s a 38s.

Beef is reported heavy and irregular; pork dull.

The London money market is slightly easier.

SECOND DESPATCH.

From Washington.

WASHINGTON, Jan. 2.

The correspondence of the Herald says, the filibuster spirit still continues to rage, and certain Senators and members are busy collecting facts relative to Walker's first foray to Central America, and his movements since then, all of which will be laid before both Houses next week in flaming speeches.

The Com. on Foreign Relations, in Senate and House, will on Monday offer resolutions calling on the President for all the information in possession of government, touching Walker's movements in Central America, including the correspondence and the instructions to Com Paulding. This will be immediately sent in, with a short message from the President, with the views of the administration will to set forth. While the President will reiterate in strong terms his objections to the filibustering movement, offering Congress in his recent message, he will at the same time disavow and condemn the act of Com. Paulding.

In reference to recalling Paulding, the administration will not attempt that at present. Gen. Lamar, Minister to Nicaragua, will sail from New-York on the 5th. Besides his own instructions, which are of a peculiar nature, owing to the complicated state of affairs in Central America, he will take instructions to Com. Paulding.

Despatches from England represent that the British Cabinet have had the new Nicaraguan treaty under consideration, and do not disapprove of every [any] article of its provisions. The French government heartily approves every article.

Voluminous despatches from Mexico have been received at the State department. A proposition from an European diplomatic agent in Mexico has been made to the government, to establish a monarchy with European support, and an alliance for the safety of Cuba.

The case of Zenman, who went from San Francisco some eighteen months ago, in ship Archibald Gracie, with a small expedition to La Paz, in Lower California, but who arrived after the revolutionists had succeeded in driving out Santana, has been decided, and the accused acquitted of the charge of filibustering. This favorable result has been mainly owing to the firm and energetic course of Mr. Forsyth, our Minister.

Col. Rice of Pa. has been appointed by the Postmaster General, Printer for the Post Office Department. This is a very lucrative position—worth $10,000 a year.

It is said that Hon. Alex. C. Morton, of N. Y. is to be appointed Judge of the Supreme Court for the Territory of New Mexico, in place of Judge Brocchus, resigned.

General Walker was serenaded last night.

Indignation Meeting.

MOBILE, Jan. 2.

A great Nicaraguan indignation meeting was held here to-night, at which resolutions were passed censuring the administration and demanding Walker's restoration and the repeal of the neutrality laws. Many prominent Democrats were present and made speeches.

The Filibuster Prisoners.

NEW ORLEANS, Jan. 2.

Some of Gen. Walker's officers are among the parties.

Private Thomas Donohue, of Brooklyn died last night, and private Peter Oakes died on the voyage. Adjutant Bliss has been arrested for grand larceny, committed in Philadelphia. Mrs Bullrick and three children are among the prisoners. The officers and crew of the Saratoga are in good health.

Ship News.

NEW ORLEANS, Jan. 2.

The ship Juniper, of Philadelphia, from Rio Janeiro for New York, went ashore 100 miles south of Pernambuco, and with her cargo became a total loss. Her cargo consisted of 8000 bags of coffee. The crew were saved.

BALTIMORE, Jan. 1.

The steamer Magnolia, which was in store in Baltimore on Sat. day, was bound for Galveston, Texas. She was put in the dock on the 29th ult. Her damage is slight, requiring but few days to repair.

New York Prices.

NEW YORK, January 2.

Flour, State and Western heavy—superfine State 4.25 a 4.25; extra State 4.50 a 4.60; round hoop Ohio 4.65 a 4.75. Southern quiet—mixed to good 4.40 a 4.75; fancy and extra 4.85 a 6.75. Canadian—superfine 4.30; extra 4.40 a 5.65.

Corn, good demand—Southern new 57 a 60.

Oats firmer—Southern and Jersey 36 a 38—Northern and Western 40 a 42.

Beef quiet—Country mess 8.75 a 9.25; prime 5.50 a 6.25; re-packed Chicago 9.50 a 12.00.

Pork steady—mess 15.68 a 15.87; prime $13 a 13.25.

Freight to Liverpool very dull.

WASHINGTON AFFAIRS.—The correspondent of the New York Times says:

The intelligence that the Constitution of Kansas has been ratified with the Pro-Slavery clauses is a bomb-shell, which the administration did not anticipate. Among those Northern men who had proposed to sustain the President's policy, it excited an indescribable panic; and by the time the discussion is resumed in the Senate we shall find Messrs. Bigler, Jones, Fitch & Co. shivering with a most distressing fit of political ague.

On the other hand the Southern men who have heretofore been a little backward in the fight, fearing that the Kansas Constitution would come here with the slavery clause out, will now become active and earnest in the support of the Administration policy—and the real struggle will hereafter be carried on with a purpose. Southern men are much elated with the Kansas news—but they give the administration no thanks, being satisfied that the President went again to Kansas to induce the people, as a matter of policy, to vote down the slavery article.

General Walker's present intention is to proceed to New Orleans and challenge a trial. The indications are that no efforts will be made from here to secure his prosecution, and that it will not be attempted ever.

WASHINGTON, Dec. 31.—The N. Y. Times correspondent says, the tone of the administration relative to Com. Paulding, is materially modified. Capt. Eagle has received permission to delay his return to Aspinwall till the 20th January. Com. Paulding will probably carry Minister Lamar to Central America, before his return, and then come home in his own ship, whose cruise will then be ended, thus receiving the Commodore without conveying a mortifying rebuke. Notwithstanding the positive official denunciations of the illegality of Paulding's act, the President privately expresses his admiration of it. The Commodore will neither be sacrificed nor theoretically sustained. The President indicates a purpose to send a special message to Congress on the subject on Monday. Senator Douglas has been heard from. He intends to take bold ground in favor of Walker, the filibuster.

FROM KANSAS.—The Times correspondent says:—"One letter from near the Missouri border fully confirms the reported death of the notorious George W. Clark, the murderer of Barber.

On the 23d. last, the difficulty at Port Scott was still progressing. Clark was at the head of the Pro-slavery force when he was killed.—Seven Pro-slavery men had fallen at last accounts, and the greatest excitement existed.

News had been received at Wyandotte that nearly one thousand Missourians went into Shawnee on the day of election to vote; and it was positively known that large numbers of them were encamped near Westport on the day preceding the election.

REDUCTION OF FARE.—The Somerset and Kennebec, and Portland and Kennebec Railroads have made an important reduction in their rates of through fare from Kendall's Mills to Port and and Boston.

The Republicans in the Seventh District in Massachusetts have nominated Daniel W. Gooch for Congress, to fill the vacancy occasioned by the resignation of Mr. Banks.

Intelligence from Utah, subsequent to November 6, states that the Mormons had destroyed Fort Bridger, burning all the buildings on the approach of Col. Johnston.

Two boys were sliding down hill on Boston Common, recently, when one of them ran against a tree, and the other, following him at full speed, with an umbrella upon his sled, ran the handle several inches into the person of the forward boy, from the effect of which he died the next day.

It is understood that the venerable Josiah Quincy is writing a Life of John Quincy Adams, and that all the voluminous papers left by the latter have been placed in his hands for that purpose. It is thought that part at least of the work will be ready for publication in February.

MARINE LOSSES.—The footing of the losses by marine disasters, during the present year, shows the absolute blotting out of nearly $20,000,000 of capital.

The colcium light on board the Atlantic was so distinctly visible at a distance of fifteen or twenty miles from Sandy Hook, at an early hour on Monday morning, last as to cause the impression that there was a fire at sea.

EXTINCTION OF MISSIONARIES.—A dispatch on the fourth page announces the death of two missionaries to India; natives of New Jersey. The Newark Mercury states that they were led out to execution *wading ankle deep* in blood. About the scaffold, where they were beheaded blood had collected in such quantities as to submerge the severed heads of previous victims, against which they stumbled as they walked. They died, as they had lived, with true christian bravery.—*Boston Journal.*

FLOUR,

Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat,* for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing. 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place. Samples may be seen at the Stores of JOHN McLAUGHLIN, No. 43 West Market place, O. D. HOLT, 60 Broad Street, BELLIER & BOARDMAN, Hammond st. GOODWIN & WEBSTER, head of Exchange Street, GEORGE L. WORLD'S BLESSING!

RHEUMATIC, NEURALGIC & SPINAL BALM.—*A Miracle of the Nineteenth Century.*—A son of Mr. L. Colcroft has been suffering the last two or three weeks with a severe case of rheumatism—so much so that he was prostrated, and was unable to move himself in bed; and his friends considered him dangerously sick. Dr. J. B. N. Gould, of Boston, who has discovered a remedy for Rheumatism, Neuralgia, and Spinal Disease, arrived in town on Saturday, and has taken rooms at the Elm House. The Doctor was called on to treat his case, and in one hour from the time he applied his Rheumatic Balm he was able to leave his bed and walk his room, and is now free from rheumatism. This is, indeed, a wonderful discovery. [From the Eastern Argus, Nov. 24'57.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.
